ACSG helps government agencies, federal contractors, defense industrial base, manufacturers and financial services organizations identify cybersecurity risks then **build or fix cybersecurity programs to meet compliance.**

ACSG's **Total Client Success Framework** incorporates **zero trust** principles with continual mission and cybersecurity posture awareness to inform client decisions. We deliver value in accordance with aggressive timelines while ensuring **prompt quality customer service.**

ACSG is uniquely positioned to help our clients achieve mission focused information assurance since our **primary concentration is cybersecurity.** Although our services are cybersecurity-centric we collaborate and effectively communicate with relevant stakeholders including executive leadership, program management, technical teams, and business units to ensure cohesive solution delivery using **quality assurance & agile methodologies.**

## The ACSG Difference

 <h3>Practical Experience</h3> <p>Our CEO leads with over 25 years direct experience as a hands-on cybersecurity professional. ACSG's Cybersecurity Client Success Team includes a privacy lawyer, CISSP, Industry Subject Matter Expert (SME) and a program manager for all engagements.</p>	 <h3>Client Success Focus</h3> <p>Personnel are trained in our Total Client Success Framework. Anyone can deliver a "tech". ACSG delivers metric supported client success. We're available to respond to service and support requests quickly and onsite within 48 hours due to client proximity.</p>	 <h3>Zero Trust Mission</h3> <p>We believe CYBER encompasses technology and information driven processes. When the human element is equipped with applied strategic direction, ACSG enhances it all with risk-based security using zero-trust principles industry appropriate best practices.</p>	 <h3>Transparent Pricing</h3> <p>ACSG's clear pricing and subscription plans allow clients to prioritize budget spend in alignment with strategic goals and available resources. We operate with transaction integrity and accuracy of the applied solutions we deliver to our clients.</p>
